# CREATING VALUE AND IMPACT IN MICHIGAN COMMUNITIES

## The Role of the Foundation

The Foundation supports the Association's mission to connect, learn, and grow beyond its membership. It provides charitable support to Association programs, WAIAM programs, and other organizations that align with its foundation pillars. Priority consideration is given to programs targeting underserved, under-resourced, and rural populations.

Investing in the Foundation's mission today will help prepare the next generation for careers in aerospace. Your support will boost the earning potential of individuals and families as more Michigan businesses join the aerospace industry. Give a child the chance to reach new heights—make a gift today.
